

I am a French Product designer, currently completing a User experience Master's Degree. I will be graduated in September 2018.  
I chose to study design for my love of problem solving. During my last experiences, I worked for different companies, always looking for the most efficient way to solve problems and keeping in mind that design is above all about empathy.

*I am looking for a product designer position.*

---

## Experiences

---

May 2018 - Today

Ottawa, Canada

### Product design intern **Shopify**

Working in the UX Money team to make payment processing an after thought for merchants, allowing them to focus on their core business instead.

February 2017 - Today

Paris, France

### Ux|Ui designer **Freelance**

Clients : Continental Foods, Notaire Château d'Olonne.

August 2016 - January 2017

Munich, Germany

### Product design intern **Cogniance**

I focused on the creation and the improvement of digital solutions (UX methodologies, service design, visual design...).

July 2015 - October 2015

Nantes, France

### Ux|Ui design intern **Emotic**

I worked on several projects and for various clients as SNCF and Rothschild. My main mission was to elaborate and optimize interfaces.
